

ITGI system, The best option for opening the Southern Corridor

Konstantinos Karayannakos,
Division Head, International Projects
DEPA S.A. Public Gas Corporation

IENE, “Ενέργεια & Ανάπτυξη 2011”
Athens 23/11/2011

The ITGI System can spur the development of the Southern Corridor because...

It is the most mature and advanced project of the Corridor.

The ITGI System can spur the development of the Southern Corridor because...

It is the most mature and advanced project of the Corridor.

Its volumes are commensurate with the SD-2 volumes and timing.

It is scalable, allowing progressive expansion to meet supply and demand growth.

The ITGI System can spur the development of the Southern Corridor because...

It is the most mature and advanced project of the Corridor.

Its volumes are commensurate with the SD-2 volumes and timing.
It is scalable, allowing progressive expansion to meet supply and demand growth

It provides for reverse flows, thereby facilitating greater flexibility and security.

The ITGI System can spur the development of the Southern Corridor because...

It is the most mature and advanced project of the Corridor.

Its volumes are commensurate with the SD-2 volumes and timing.
It is scalable, allowing progressive expansion to meet supply and demand growth.

It provides for reverse flows, thereby facilitating greater flexibility and security.

It reinforces the prospects for developing new interconnections, enabling supply to the whole region.

IGB, A gas demand aggregator, delivering gas in South Eastern Europe

IGB's Commercial Company will operate as an **aggregator** of a multitude of natural gas sources and it will:

Further enhance the diversification of supply sources in the SEE.

Address the need and facilitate the gasification of the Western Balkans.

Enhance the competition at the regional level towards a transparent integrated energy market.

New Flows of natural gas from Eastern Mediterranean Sea

DEPA, together with its strategic partners, is at the forefront of gas market developments in Greece and the SEE region
