

Panagiotis Deriziotis is a Senior Research Associate with IENE. He currently contributes research and coordinates IENE's interdisciplinary study "SE Europe Energy Outlook" expected to be published by the end of 2009. This report will encompass all aspects of the region's energy industry and it will be presented at the 3rd "SE Europe Energy Dialogue" conference to be held in Thessaloniki on June 18, 2009. Prior to joining IENE, Mr. Deriziotis worked as an energy and GHG market analyst for some major Greek and U.S. energy corporations. Earlier, he served as a junior Research Associate for the Earth Engineering Center at Columbia University. He holds advanced degrees in International Affairs and Environmental Engineering from Columbia University and a Bachelors degree in Geology and Geophysics from the University of Athens.
