

Bogomil Liubomirov Manchev was born on 31.12.1957 in Sofia.

In 1985 he graduated as master of sciences in department of Thermal and Nuclear Power of the Faculty of Power Engineering and Power Machines of Technical University, Sofia. In 1991 eng. Manchev graduated post-graduate study on: "Expert systems and artificial intelligence" in the Post-graduate qualification Department of the Technical University, Sofia.

In 2001 he defended a thesis on topic: "Reliability characteristics of systems connected with the safety of reactors WWER-1000" and an education and scientific doctor's degree was conferred on him.

After his graduation eng. Manchev went to work for the operative section of Kozloduy NPP, and in a very short period he has become an engineer on duty of the newly built Unit 5 with the new for Bulgaria power capacity of 1000 MW. From 1988 to 1992, eng. Manchev has been working as a senior expert in the Central Laboratory of Control Systems. In the meantime, he has been taking an active part in commissioning of Unit 6 of Kozloduy NPP where he has been occupied again as engineer on duty of the Unit.

From the moment of his joining to Risk Engineering in 1992, up to 2001, eng. Manchev has been Deputy Manager of the company, and from 2001 to 2002, he has been Manager of the company. After transformation of Risk Engineering into a Joint Stock Company, he occupied the position of Executive Director and at the same time eng. Manchev became a main stockholder and a member of the Board of Directors.

In 1995 GCR, Ltd was founded with partners Risk Engineering, Ltd and Gilbert Commonwealth Risk, Ltd, and up to now eng. Manchev is a Manager thereof.

The professional experience gained in the management of a number of complex and important projects in the field of power engineering, including projects with international significance and projects with participation of many international specialists and groups of experts, gives him the possibility to run the business of these two companies successfully.

Bogomil Manchev has a command of Russian and English languages. He has more than 30 publications, reported on international and national forums and published in famous international proceedings or reviews.
